# FOWLER

Ultra-Point Aluminum Caliper

Made in GERMANY

NEW!

3 YEAR WARRANTY

Fowler/Helios is proud to introduce a new lightweight, high precision caliper at almost half the weight of steel calipers. This is made possible by a special aluminum rail and slide. The aluminum body of the Helio-Point has a hard-anodized surface to give it a hardness of 1100HV

Specifications:
- 6 & 8" models offer 4-way measurement—depth, inside, outside and step.
  Depth rod has a diameter of .063"/1.6mm
- 12" model offers inside, outside, and step measurements.
- Resolution .0005"(.01mm)
- Repeatability .0005"(.01mm) ±2s
- Measuring surface hardness = 60HRC

Electronic   Specifications:
- Incremental floating zero.
- Direct inch/metric conversion.
- Large, high contrast LCD display indicates in/mm, hold, and zero functions.
- Direct RS-232C output
- Combination zero/data/hold button.

Fowler SPC RS232 DIRECT

Special sliding material and V-guide assures precise, smooth movement with absolutely no play
