

SoftwareWedge User Comments...

“Fantastic!!”

- David Hole, Assistant Professor, Utah State University

“Very Powerful and Easy to Use.”

- Ken Parks, Combustion Consultants

“A brilliant concept, easy-to-use, well documented.”

- Terry Jones, Data Electronics

“Great Software! Solves many comm. problems.”

- Steve Biela, Elf Atochem North America, Inc.

“We find the Wedge extremely useful for our many laboratory instruments. It is very versatile and supports data collection into any application.”- J. Manwaring, Eco Physiology Lab., Utah State Univ.

“A great program with many possibilities.” - Mikael Bystrom, Ericsson Anslutningsystems AB, Sweden

Any Serial Data Direct into Any PC Application:

“I appreciate the ease of use and direct link to Excel.”

- J. Seitz, President, Clinical Research Services

“Works Great.” - Kit Wilson, Sr. Systems Analyst, Boeing.

“Excellent Software Package!” - Paddy Mallon, Teagasc, Grange R & D Center

“I highly recommend the Wedge for data collection from RS232 devices - especially its ability to easily edit serial data to your requirements. Great Program!”

- Jim Bartell, Engineer, Cinema Products Corp.

“Excellent Product!”- Kenneth Carter, AVP Baybank Systems

“We are very pleased with the software and its ease of use. We would recommend it to anyone requiring serial transfer into existing programs.” - Travis Perry, Crest Industries

User Friendly:

“Excellent package, easy-to-use, a great time-saver.”

- John Ambrose, J.Roy Gordon Research Lab.

“Loved It! Easy Setup.” - Bob Neves, Microtek Labs

“Excellent, easy to use package.”

- Gary Box, Senior Design Engineer, Graco Inc.

“Excellent program, easy to learn, with a wide range of applications.” - Tom Mirris, Florida Production Engineering

“I never thought it would take less than 15 minutes to get the Wedge collecting data from my instruments. The program works great. I have not been this satisfied with a software product in years.” - Mark Soldavini, Leaseplan

“Great product. We'll be buying additional copies for new systems.” - Martin Bishop, Allied Signal Aerospace

Time Saving:

“This product has saved me many programming hours.”

- Glenn Dixon, Analytical Lab.

“Great Product - What a time saver! We'll be buying more.”

- Wes Prais, Becton Dickinson

“How efficient and easy-to-use your SoftwareWedge program is! Obtaining data from our gauges is now a trivial task.”

- J.M. Martin, Lucas Girling, S.A

“Very Cool” - Stephen Bailey, Quality Alarm Service.

“Works Great!”- John Zink, Hewlett Packard

“The SoftwareWedge is exactly the tool we need for collecting data from our instruments. It is extremely easy to use, providing a transparent serial interface into Excel®. I would absolutely recommend the Wedge for laboratory data collection. Thanks for making a great product!!”- Brian Jones, Lab. Coordinator, Physics Dept., Colorado State University

“Great Product!” - David Bowden, X-Rite Corporation

FREE A+ Rated Support:

“What service! I was not only impressed but I will use you as a standard in the future. TAL you are tops in my book. An A+ for service!!!” - Doug Hayes, US Army

“Your Technical Support has been Great!”- Mark Skinner, 3M

“I very strongly recommend the SoftwareWedge. It is enabling us to perform very difficult environmental data collection. I also appreciate the very helpful technical support I received.” - Mark Perry, Environmental Services Ltd.

“If you can't figure it out, they (TAL) will help you... and they don't charge! I've been pleased as punch!” - Philip Cox, Engineer, Memphis Light, Gas and Water

... these are just some of the many excellent reviews we receive ...
