

■ Calibrations Traceable to NIST

# Certificates of Calibration & Compliance

Gage Maintenance Program

Gage	Size	New Gages Certificate of		Used Gages Reinspect & Certificate of Calibration
		Compliance	Calibration	
Thread Plug & Ring	0.000 to 2.000"	No Charge	10.00	16.00
Plain Plug & Ring	0.040 to 2.001"	No Charge	10.00	16.00
Pipe Plug & Ring	0.000 to 2.000"	No Charge	30.00	30.00
	2.001 to 5.000"	No Charge	35.00	35.00

Note: Inspection and calibration charges for sizes not shown are priced on application. Gages returned for recalibration (regardless of manufacturer) should be sent to the attention of Gage Recalibration Manager, Greenfield Gage Lab, 825 Chase Avenue, Elk Grove Village, IL 60007

Certificates of Compliance are available on new gages only.  
 Certificates of Calibration are available with new or used gages.

Certificate of Compliance certifies that a gage as listed is within proper tolerances and proper physical condition.

Calibration Certificates show actual measurements. Each certificate is numbered to match a number we etch on the gage. Specify either "Inspect & Certify" or "Inspect & Calibrate." Our forms show traceability of our measuring standards to the national Institute of Standards and Technology plus the environment requirement of our gage lab.

**Maintain your screw thread and gage quality control with Greenfield's external thread indicator gage roll recalibration service.**

Greenfield offers a gage recalibration service on Greenfield Tap and Die multi and single rib rolls. Our gage maintenance program utilizes the same equipment and the same strict standards for recalibration that are employed to manufacture our line of high quality gages.

**Inspection Fees:**

- Multi-Rib Rolls \$59.00 per set of three rolls
- Single Rib Rolls \$42.00 per set of three rolls

**To place an order:**
