

Fowler

Heavy-Duty Vernier Calipers

Fowler Helios

Fowler heavy duty vernier calipers range in size from 12" to 48".

Special Features:

- Machine divided and engraved from master.
- Open face design permits both vernier scales to be located on one side of the gage for inside and outside measurements.
- Hardened stainless steel throughout, ground and lapped for accuracy; satin chrome finish.
- Fowler/Helios calipers only feature long 50 division vernier scales have wide spaced, easy to read graduations on satin chrome finish. Raised sliding surface prevents wear and defacement of graduations.
- All sizes feature fine adjustment screw.
- Direct reading on inside measurements on all 52-065 calipers except 52-065-014.
- The longer jaws on the larger workpieces permit greater accessibility and easier measurements.
- Meets or exceeds Federal accuracy specs.
- Price includes fitted case.

Order No.	Measuring Range	Graduations	Depth of Jaws	Finish
