

▲ 52-010-004

Fowler's 4" compact-sized "Pocket-Cal" Dial Caliper #52-010-004 features exceptional accuracy. Constructed of hardened stainless steel for a long life of reliable service, Pocket-Cal's lightweight, smaller design makes it a real convenience for a variety of applications.

- Hardened stainless steel throughout; measuring faces are precision ground and micro-lapped for ultimate accuracy.
- "One-Rev" per .100" easy to read graduations.
- Beam surface satin chrome finished to prevent glare; microfine graduations = .100".
- Each dial graduation = .001".
- Knurled lock assures precise settings; knurled thumb button for rapid travel.
- Depth of jaws =  $1\frac{3}{16}$ ".
- Three-way measurement: use cross jaws for inside measurements, bottom jaws for outside measurements and convenient depth rod for depth measurements.
- The easy to read dial is fully adjustable for zero or intermediate settings.
- Price includes fitted case.
- Black face, orange hand.
