

# Fowler

## Protractors

▲ *Semi-circular head type*  
#52-450-005.

▲ *Rectangular head type*  
#52-450-010.

▲ *Precision Protractor* #52-441-006.

Fowler's Protractors are invaluable tools for machinists, toolmakers, draftsmen and mechanics.

Special Features—#52-450-005:

- Measures angles from 0—180 degrees.
- Used for drawing radial lines at any angle.
- Measures  $3\frac{5}{16}$ " in diameter and features a lock nut and 6" arm with knurled thumb lock nut.

Special Features—#52-450-010:

- Measures angles from 0-180 degrees.
- Used to transfer angles and to set bevels.
- 6" arm with knurled thumb lock nut.
- Made of chrome steel with satin finish.
- Measures  $3\frac{5}{16}$ " x 2". Rectangular head provides four working edges. Blade secured firmly at any angle by a lock joint and knurled nut.

Special Features—#52-441-006:

- This precision Protractor incorporates the use of a blade and beam design which facilitates handling
- Resolution is 5 minutes.
- Used for scribing and layout work.
- Measures a full 360 degree angle range.
- Acute angle attachment included.
- High quality tool steel construction.
- Blade length  $5\frac{3}{8}$ " ; beam length 6".

Order No.	Description
52-450-005	Protractor with semi-circular head.
52-450-010	Protractor with rectangular head.
52-441-006	Precision Protractor
