

# Fowler

## 3-D Sighter

▲ 3-D Sighter #52-660-737.

Fowler's 3-D Sighter is an optical precision instrument. This binocular magnifier enlarges close work so that it is seen clearly in three dimensions. It adjusts to any head size comfortably and has no moving parts to wear out or replace. The 3-D Sighter prevents squinting, saves time and increases accuracy.

The 3-D Sighter is an ideal instrument for people of all ages and for all types of business, industry and home use—a must for craftsmen, inspectors, hobbyists, repairmen, medical professionals and technicians.

#### Special Features:

- Magnifies objects greatly.
- Makes close work easier & more accurate.
- Features the finest prismatic lenses.
- Can be worn with eyeglasses and bifocals.
- By raising head slightly and without removing the 3-D Sighter, normal vision is resumed.
- Reduces chance of accident; eyes and forehead are protected.
- Improves working conditions and alleviates tension, strain and fatigue.
- Price includes carton box.
