

Digimatic Point Calipers with Absolute Encoder Series 573

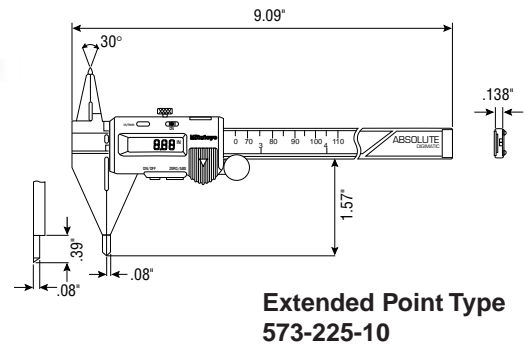

573-221-10
Point Type
Absolute Encoder
Digimatic Caliper

**Point Type
573-221-10**

573-225-10
Extended Point Type
Absolute Encoder
Digimatic Caliper

**Extended Point Type
573-225-10**

Shallow planes and similar dimensions can be accurately measured with MITUTOYO Point and Extended Point Calipers. The narrow tip jaws fit into very small grooves and tracks,

making many previously difficult outside measurements far easier to obtain. Digimatic models now feature Mitutoyo's exclusive Absolute encoder.

Features

- Comes with inside jaws.
- Measures depth and step dimensions.
- Includes carrying case.

Specifications

Digimatic Point Calipers with Absolute Encoder

Inch/Metric (with SPC output)

Order No.	Range	LCD Resolution	Accuracy
573-221-10	0-6"	.0005"	±.001"
	0-150mm	0.01mm	
573-225-10	0-6"	.0005"	±.001"
	0-150mm	0.01mm	

*For SPC output order Connecting Cable **959149** (1m) or **959150** (2m). All models listed above operate on a single SR-44 (**541980**) battery which lasts approximately 3.5 years with normal use. Replacement Battery: **541980** (1pc), **541980-10** (10 pcs/SET)
